PSI NATIONAL TESTING - GENERAL INFORMATION

This Test Taker Guide (GTT) provides test takers with information about the PSI National Tests and application process for taking a Electrology test with the Massachusetts Board of Registration of Cosmetology and Barbering.

The Massachusetts Board of Registration of Cosmetology and Barbering (referred to as the Board) has contracted with PSI Services LLC (PSI) to conduct the PSI National Barber/Cosmetology Testing Program. PSI works closely with the Board to make certain that the tests meet the State and nationally established technical and professional standards for test development and administration. PSI provides these tests through a network of computer testing centers in Massachusetts.

APPLYING TO TAKE A TEST

Test takers must complete the application form found at the end of this guide. The completed application and fee are emailed to MACOSprocessing@psionline.com (*no faxed applications will be accepted*). Once PSI has received the application and the applicable fee, PSI will review and process the application. If an application is incomplete or missing required documents, an email will be sent to the test taker explaining the deficiency. The test taker will need to resubmit a completed application package with the required information for review. It is in the test takers best interest to make sure the application is complete and required documentation uploaded prior to submitting the application package. Missing information will delay the application process.

The following information will aid in a timely response.

- ✓ Ensure the application is complete, legible, and signed
- ✓ The applicants name matches exactly the name on the government I.D. being used to test
- ✓ Credit card information is provided, and correct application fee selected (no cash or checks accepted)
- ✓ The school certification must be completed by the school director and uploaded with the application
- ✓ All security questions must be answered completely
- ✓ If a test taker answers "Yes" to any security question, additional Board approval may be necessary
- ✓ Complete the Criminal Offender Record Information (CORI) Acknowledgement
- ✓ Complete the Identity Verification section based on the submission process (either Section A or Section B)

Once the entire package is inspected by the test taker and reviewed ensuring the package is completed and documentation included, the test taker will upload the package to MACOSprocessing@psionline.com

Once an application is received by PSI and processed, it will be pending State Board approval. Unfortunately, there is not an estimated timeframe on when the application will be approved, and there are not status updates provided. Once an application is approved by the state Board, test takers receive an approval email from PSI with instructions on how to proceed and schedule a test.

If the test taker requires a language other than English, please email MACOSprocessing@psionline.com with the language is preferred. Test language options are English, Vietnamese, Spanish, Portuguese, and Simplified Chinese.

Please be advised; the application will be *RETURNED* to the test taker if any required information OR documentation is missing, causing an unnecessary delay in the approval process! For a timely approval, please make sure the application, all documentation and fees are included when the form is emailed to PSI.

ELIGIBILITY

The test eligibility is good for 1 year (12 months), after 1 year the test takers eligibility will expire. Once eligibility has expired the test taker does not need to retake the course, however, must re-apply with the Board by filling out a new application, pay another application fee and email the completed application to MACOSprocessing@psionline.com. The Board will again approve the application and eligibility will reinstate for another year. Test takers will again pay test fees to schedule their test.

TEST PAYMENT AND SCHEDULING

Once the application is approved the test taker will receive an email from PSI to schedule and pay for their test. The test taker is responsible for contacting PSI to schedule their test. PSI will make every effort to schedule the online time

<u>MASSACHUSETTS TEST FEES</u>

PSI TESTING EQUIPMENT

The PSI National theory and written practical tests will be administered using a computer, a mouse and computer keyboard.

IDENTIFICATION SCREEN

Test takers will be accompanied to a testing station. Once test takers are seated at their testing station, they will be prompted to confirm their name, identification number, and the test for which they registered.

TUTORIAL

Before a test taker begins a test, an introductory tutorial is provided on the computer screen. The time used to watch the tutorial is not deducted from any test timing. The tutorial takes up to 15 minutes, sample questions are introduced during tutorial so a test taker may familiarize themselves on how questions are written and how to review the answers given.

TEST QUESTION SCREEN

The "function bar" at the top of the test question, provides mouse-click access to any features available while taking the test. During the test, one question will appear on the screen at a time. There is also a timer feature that at the top of the screen that displays the time a test taker has remaining to complete the test.

Note:

Even though a test taker has entered a response to a question, the system will allow the response to be changed anytime the test is active. Once a test taker signs out of a test or timing expires; this feature will no longer be available.

The screenshot displays a web-based testing interface. At the top, a navigation bar includes icons and labels for 'Mark', 'Comments', 'Goto', 'Help', and 'End'. Below this, a status bar shows 'Question: 3 of 40', 'Answered: 2', 'Unanswered: 1', 'Marked: 0', 'View: All', and 'Time Left(Min): 359'. The main content area displays question 3: 'What do the stars on the United States of America's flag represent?'. Below the question, it says '(Choose from the following options)' and lists four options with checkboxes: '1. Presidents', '2. Colonies', '3. States', and '4. Wars'. At the bottom of the question area, there are two buttons: '<< Back' and 'Next >>'.

EXPERIMENTAL QUESTIONS

In addition to the number of test questions specified in the "Test Content Outline". There are a small number of "experimental questions" may be administered to test takers during the tests. There are typically at least five (5) experimental questions on a test. The results of these questions not included in the final test takers score. Administration of such unscored experimental questions is an essential step in developing future PSI tests.

Test takers will utilize the PSI National Electrology test for a Electrology license in Massachusetts.

ELECTROLOGY THEORY TEST

The test content outline is prepared and is periodically updated by committees of professionals who are subject matter experts in Electrology, Electrology instruction, or regulatory issues. The test content outline identifies areas of importance to licensees for them to perform their duties on the public in a competent and in a safe and responsible manner. The content outline lists topics that are on the test and the number of questions for each topic.

We advise test takers not schedule a test until they are familiar with the topics on the outline. Test takers may use this outline as a guide as well as the test references as a guide for a pre-test review.

ELECTROLOGY THEORY CONTENT OUTLINE

The following content outline lists the topics that are on the test and the number of questions for each topic. We recommend not scheduling a test until a test taker is familiar with all topics in the outline. The Electrology test consists of 50 scored questions and 10 unscored experimental questions. PSI SCORE THEORY TEST REPORTING INFORMATION

Test takers must score at least 70% to pass the PSI National Electrology *Theory* test.

- Test Scores will be emailed to the test taker upon completion of their test.
- Test scores results are confidential and will be given only to the test taker and the Board office.
- Test takers who are successful, will receive a "PASS" report.
- Test takers who score below the required passing score will receive an overall score, and an individual score for each of the test topic areas. Test takers use this information to assist them in studying for a re-examination.

To better prepare for the PSI National Electrology Theory test, test takers can now review by taking an online practice test. Practice tests are intended to aid test takers with example test questions. The purpose is to familiarize a test taker with the general types of questions that will appear on a Electrology test. Though questions are NOT based Electrology, these cosmetology questions are written in the same manner as a test taker will see on an Electrology test. Scoring well on the practice test will not guarantee a positive outcome on the actual licensing test. This is the **ONLY** official PSI practice test; PSI does not recognize nor endorse any other study guides that may be offering information on the PSI National Cosmetology Program. The PSI practice tests are offered to review an unlimited number of times; however, a fee is assessed for *each time the test is utilized for review*.

Go to <https://www.psionlinestore.com> for more information and to register!

EXAMINATION REVIEW

PSI, in cooperation with the Department and Massachusetts Board, will be continually evaluating the tests being administered to ensure that the tests accurately measure competency in the required knowledge areas. Comments may be entered during the test by clicking the Comments link on the function bar of the test question screen. Test taker comments regarding the questions and the tests are welcomed. Comments will be analyzed by PSI test development staff. While PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. If

a discrepancy is found during the comment review, PSI and the Department may re-evaluate test taker's result and adjust them accordingly.

OBTAINING A DUPLICATE SCORE REPORT

To request a duplicate score report, test takers may contact PSI customer services at (855) 340-0093.

PSI NATIONAL WRITTEN PRACTICAL TEST- IMPORTANT GUIDELINES

Prior to registration, test takers should familiarize themselves with the following instructions to be properly prepared to sit for a test. Practical test questions or concerns, test takers and instructors please contact PSI customer services at (855) 340-0093 for solutions.

General rules for testing:

- During the written practical test, test takers must follow all appropriate rules for client protection that will ensure the health, safety, and welfare of the public.
- Test takers become familiar with items, equipment and supplies that are classified as "Single-use" and "multi-use". Test items require categorically disposing of items according to one of these categories.
- Understand chemicals that are *not* grouped as "dangerous chemicals" by OSHA and are *not* required to be listed on an actual business SDS sheet
- Understand chemicals that are grouped as "dangerous chemicals" by OSHA and are required be listed on SDS sheets in an actual business.
- The number one safety rule in our industry is: "Following Instructions". There is no necessary or required style or technique a school needs to teach, or a test taker needs to perform. All topic areas are observed in the manner an electrologist would personally complete a task. Scores are based on the test taker displaying a solid knowledge of workplace Infection Control and Safety Precautions.

WORKPLACE INFECTION CONTROL PRECAUTIONS

Test takers need to be familiar and follow all workplace infection control precautions. Here are some examples of the expectations of the test as well as an everyday business to familiarize a test taker with some of the industries infection control standards.

- Cleaning hands before starting a service. Knowing when hands become contaminated and keeping them clean as to not infect a client or themselves.
- Keeping the workplace from becoming contaminated, such as: returning items to the disinfected areas, leaving a drawer open or otherwise contaminating a workstation.
- Knowledge of single-use and multi-use items and where to dispose of them properly.
- Disinfecting workstation surfaces and keeping them from becoming contaminated. If a worksurface becomes unhealthy a test taker has the knowledge to know when they would require the station to be cleaned and disinfected.
- Knowing how to use and dispense products without contamination. For example, double dipping, or any other cross contamination with the skin or worksurfaces.
- When items are set on a contaminated work surface, they may not be inserted into product containers or touch dispensing tips of bottles and jars.
- Keeping clients from becoming contaminated by the electrologist.
- Keeping containers being used free from contamination.
- Making sure our tools are clean and disinfected.
- If a body fluid becomes present during a service (i.e., blood, vomit, feces), how we deal with the situation without contaminating ourselves and others.

WORKPLACE SAFETY PRECAUTIONS
