ABOUT PSI

This Candidate Information Bulletin provides you with information about the examination process for a cosmetology license in the State of Minnesota.

The Minnesota Board of Cosmetology has contracted with PSI to conduct examinations. PSI provides examinations through a network of examination centers in the United States. PSI works closely with the State to be certain that examinations meet local as well as national requirements in basic principles and examination development standards.

The Minnesota Board of Cosmetology has established the requirements for a cosmetology license. Application for licensure **MUST** be filed within one year of the date on which the candidate passed the examination. If parts of the exam were passed on different dates, the one-year period begins from the earlier examination date.

EXAMINATION INFORMATION

Cosmetologists, estheticians, and nail technicians must each pass three written examinations: the general theory examination, the state examination, and the written practical examination. You may pay and schedule for all three examinations at once using the combination examination or you may pay and schedule each separately. If you take the combination examination and only pass one (1) of the examinations and fail the others, you will only need to retake the failed examinations. Each time you retake an examination, you are required to pay the examination fee.

SCORE REPORTING

Your score will be given to you immediately following completion of the examination. The following summary describes the score reporting process:

- **On screen** - your results will appear immediately on the computer screen.
 - If you **pass**, you will immediately receive a successful notification.
 - If you **do not pass**, you will immediately receive an unsuccessful notification on the screen along with a diagnostic report indicating your strengths and weaknesses.
- **On paper** - an official score report will be printed at the examination site.
- **Virtual testing** - score reports from online tests will be issued via the test taker email address provided, within 48 hours of the test.

EXAMINATION REVIEW

Comments may be given in written form to the examination proctor at the end of the examination or entered during the exam by clicking the Comments links on the function bar of the test question screen. Your comments regarding the questions and the examinations are welcomed. Comments will be analyzed by PSI examination development staff. While PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. These questions will not be scored and time to answer them has been added to the time allowed. The administration of such unscored, experimental questions is an essential step in developing future licensing examinations.

EXAMINATION CONTENT OUTLINES

For examination questions or concerns, please call PSI at (855) 834-8746 and speak to a PSI customer service representative.

The examination content outlines have been prepared and are periodically updated by committees of professionals who are subject matter experts in cosmetology practice, instruction, and regulatory issues. The examination content outlines identify areas of importance to licensees for them to perform their duties to the public in a competent and legally responsible manner.

Use the outline as a guide for pre-examination review of reference material. The outline lists the topics that are on the examination and the number of questions for each topic. Do not schedule your examination until you are familiar with the topics on the outline.
