## EXAMINATIONS BY PSI

This Candidate Information Bulletin provides you with information about the examination and application process for Contractors Licensure in the State of Ohio.

Eligibility for examination is determined by the Ohio Construction Industry Licensing Board (OCILB).

The Board has contracted with PSI to conduct its examination program. PSI provides examinations through a network of computer examination centers in Ohio and in many areas throughout the United States. PSI works closely with the State to be certain that examinations meet local as well as national requirements in basic principles and examination development standards.

### SUBMITTING YOUR EXAMINATION APPLICATION

You must obtain an examination application form from the OCILB or online at

<http://www.com.ohio.gov/dico/OCILB/LicenseQualificationProcess.aspx>. Complete the application and mail it with the appropriate fees and other required information to the OCILB. The OCILB will review your application to determine your eligibility to sit for an exam.

All applicants for contractor commercial licenses **must** take the Ohio Contractor's Business and Law exam in addition to any required trade-specific examination. If you decide to become licensed in another trade at a later date, you only have to pass the Business and Law examination once every three years.

You will be notified by mail of the OCILB's decision. If the OCILB approves your application you are required to obtain a Federal and State background check prior to sitting for the examination. OCILB approval is valid for one year. If you have not obtained a background check or taken your examination after one year, you will need to reapply for eligibility to sit for an exam.

## EXAMINATION SCHEDULING PROCEDURES

Once you have been approved by the Board, you are responsible for contacting PSI to schedule an appointment to take the examination.

➤ If you fail an examination portion, you must wait 60 days before retesting. You can retest up to 5 times in a year.

## TAKING THE EXAMINATION BY COMPUTER

The examination will be administered via computer. You will be using a mouse and computer keyboard.

### TUTORIAL

Before you start your examination, an introductory tutorial is provided on the computer screen. The time you spend on this tutorial, up to 15 minutes, DOES NOT count as part of your examination time. Sample questions are included following the tutorial so that you may practice answering questions and reviewing your answers.

### TEST QUESTION SCREEN

One question appears on the screen at a time. During the examination, minutes remaining will be displayed at the top of the screen and updated as you record your answers.

**IMPORTANT:** After you have entered your responses, you will later be able to return to any question(s) and change your response, provided the examination time has not run out.

### PRETEST QUESTIONS

In addition to the number of questions per examination, up to ten “pretest” questions may be administered to candidates during the examinations. These questions will not be scored and the time taken to answer them will be counted for the examination time allowed. The administration of such non-scored experimental questions is an essential step in developing future licensing examinations.

### EXAMINATION REVIEW

PSI, in cooperation with the Board, will be continually evaluating the examinations being administered to ensure that the examinations accurately measure competency in the required knowledge areas. While taking the examination, examinees will have the opportunity to provide comments on any questions, by clicking the Comments link on the function bar of the test question screen.

Your comments regarding the questions and the examinations are welcomed. Comments will be analyzed by PSI examination development staff. While PSI does not respond to individuals regarding these comments, all substantive comments are reviewed. If a discrepancy is found during the comment review, PSI and the Board may re-evaluate candidates’ results and adjust them accordingly. **This is the only review of the examination available to candidates.**

### **SCORE REPORTING**

Your examination result will be given to you immediately following completion of the examination. You will receive a printed score report marked “pass” or “fail”. The fail score report will include diagnostic information. Candidates may use the diagnostic report as a guide for studying before their next test administration.

### DUPLICATE SCORE REPORTS

You may request a duplicate score report after your examination by emailing [scorereport@psionline.com](mailto:scorereport@psionline.com).

### **TIPS FOR PREPARING FOR YOUR LICENSE EXAMINATION**

The following suggestions will help you prepare for your examination.

- Planned preparation increases your likelihood of passing.
- Start with a current copy of this Candidate Information Bulletin and use the examination content outline as the basis of your study.
- Read study materials that cover all the topics in the content outline.
- Take notes on what you study. Putting information in writing helps you commit it to memory and it is also an excellent business practice. Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
- Your studies will be most effective if you study frequently, for periods of about 45 to 60 minutes.

Concentration tends to wander when you study for longer periods of time.

### **EXAMINATION REFERENCE MATERIAL AND CONTENT OUTLINE**

If a test question answer could differ because of conflicting information in test reference sources, a legal requirement such as a code, law or regulation overrides any other reference. If two legal requirements appear to conflict, the state-specific code, law or regulation overrides the national one. Information from sources on the test reference list override information from other sources or persons.
