#### **EXAMINATIONS BY PSI**

This Candidate Information Bulletin provides you with information about the examination and application process for certification in Washington as an electrician, master electrician, modified trainee, electrical and telecommunications administrator.

The Department of Labor & Industries (L&I) has contracted with PSI Services LLC (PSI) to conduct its examination program. PSI works closely with L&I to be certain that the examination meets local as well as national requirements in basic principles and examination development standards.

#### GUIDELINES FOR L&I CERTIFICATION

#### **HOW TO OBTAIN A CERTIFICATION**

 Electrician candidates must first apply and be approved by the Department of Labor & Industries (L&I) before they can register for a PSI exam.

Applications may be obtained from L&I at: www.lni.wa.gov/ElectricalLicensing. Select Electrician, review all information and find the Apply tab.

When L&I approves your application, they will send you an eligibility notice with instructions and an Exam Unique ID that you must use to register for your PSI exam.

Administrator candidates need no approval from L&I to register for a PSI exam.

Once candidates pass all sections of the exam, they can avoid having to retest by applying for their administrator certificate within 90 days of the last passing score. See PSI score reports for application instructions.
