INTRODUCTION

PSI Services provides a range of services to the states that use the Real Estate Appraiser Examination Program. This booklet provides information that you will need to apply for Georgia's real estate appraiser examinations. Be sure to keep the booklet after you have applied for the examination; you may wish to refer to it later.

The appraiser examinations are developed through a combined effort of appraisal experts and testing professionals. Real estate appraisers and educators write the questions. Experts in the fields of both real estate appraisal and testing review the questions to ensure that they are accurate in their content and representative of good question-writing procedures.

All questions are revised and updated on a continual basis to reflect the current laws and practices in the changing real estate appraisal field.

The examination content outline used to develop the examinations is based on a job analysis conducted by the Appraiser Qualifications Board (AQB). It reflects areas of knowledge required to perform those tasks that practicing real estate appraisers judged to be important. Appraisal experts who write questions use this content outline as a guide. Thus, examinees are tested only on subjects judged by real estate appraisers as most important for performing appraisal activities.

APPRAISER CLASSIFICATION REQUIREMENTS

Any person wishing to practice as a State Licensed Appraiser, State Certified Residential Appraiser or State Certified General Appraiser in the state of Georgia must successfully pass the appropriate examination and, within 12 months of the examination date, apply for licensure or certification.

State Licensed Appraisers may appraise any properties if no loan or a nonfederally related loan is involved and may appraise noncomplex one-to-four unit residential properties provided the transaction value does not exceed \$1,000,000 and any other real estate having a transaction value of less than \$250,000 when federally related loans are involved. If you are applying for this appraiser classification, you will take the Licensed Appraiser examination.

State Certified Residential Appraisers may perform appraisals in federally related transactions of all properties that a State Licensed Appraiser may appraise and also all one-to-four unit residential properties without regard to transaction value or complexity. If you are applying for this appraiser classification, you will take the Certified Residential Appraiser examination.

State Certified General Appraisers may appraise any type of property for any purpose. If you are applying for this appraiser classification, you will take the Certified General Appraiser examination.

State Licensed Appraisers, State Certified Residential Appraisers, and State Certified General Appraisers have education and experience eligibility requirements. Information about these requirements is contained in the "Completing the Eligibility Forms" section of this handbook. Review these requirements carefully. You may NOT take the examination if you do not meet the requirements or cannot properly document your eligibility.

STATEMENT OF NONDISCRIMINATION

PSI does not discriminate among candidates on the basis of age, gender, race, religion, national origin, disability, or marital status.

APPLYING FOR THE EXAMINATION

To apply for an Appraiser examination, all candidates must submit the following:

- (1) The Georgia Real Estate Appraiser Examination Application (Pages 15-16).
- (2) A notarized copy of the Georgia Appraiser, Affidavit of Experience form (Page 17).
- (3) An Appraisal Experience Log, verifying the experience requirements have been met (Page 18). *The form provided on page 18 is a SAMPLE. You may use a different form, as long as all of the required information is included.*
- (4) A notarized copy of the Lawful Presence Verification form (Page 25).

NOTE: Do not complete the Background Clearance Application (Pages 19-21) **unless you need a clearance letter** for an arrest, a conviction or a disciplinary action. If so, the Background Clearance Application should be sent to the Georgia Real Estate Appraisers Board, NOT PSI.

The examination fee may be submitted with the application if paying by cashier's check or money order payable to PSI Services Inc. Credit card payments will be accepted at the time you call to schedule an appointment.

COMPLETING THE ELIGIBILITY FORMS

■ Affidavit of Experience

Complete the Affidavit of Experience found in the back of this handbook. Print or type your name on the line at the top of the affidavit. Read the form and write the name of your city or town on the line next to “at (city/state)” and fill in the date on the next line. In the presence of a notary public, sign the form. Be sure the notary signs the form and affixes either a notary stamp or seal.

■ Experience Log

You may count experience only if it conforms to the Uniform Standards of Professional Appraisal Practice (USPAP) and you earned that experience while you held a classification in Georgia or in another state. You may not count any experience gained prior to January 1, 1991.

When you report your experience for a Licensed or Certified Appraiser classification, your log must show both (a) the required number of hours and (b) that those appraisal hours were completed over the required period of time. You **must** use the Appraisal Experience Log in the back of the handbook to list your appraisals.

A Licensed classification requires 1,000 hours of experience over a period of at least 6 months. A Certified Residential classification requires 1,500 hours of experience over a period of at least 1 year (12 months). A Certified General classification requires 3,000 hours of experience over a period of 1½ years (18 months).

■ Qualifying Education

Courses completed from a Georgia approved school after December 31, 2002 are electronically sent to the Board by the school. You will not need to submit a certificate for those courses. The Board requires that you submit original, Board-approved course completion certificates for courses completed prior to January 1, 2003, or an original college transcript with the form *only for those additional courses taken since you obtained your last classification and that you have completed for the new classification for which you are applying.*

If you are currently classified in Georgia as an appraiser, the Board does NOT require that you submit verification of coursework presented to the Board for a prior examination or classification. The Board will not grant credit for any education course which an applicant or appraiser completes solely by taking and passing an examination. If you are not currently classified in Georgia and are applying

for an examination in Georgia for the first time, you must submit original course completion certificates or original college transcripts verifying that you have completed the hours required for the classification for which you are applying. Your coursework must include a course of at least 15 hours with an examination on the Uniform Standards of Professional Appraisal Practice (USPAP). If you are submitting appraisal courses completed outside of Georgia, you must submit written verification that the courses were approved by another state’s real estate appraisal board at the time you completed the courses.

All candidates are scheduled on a first-come, first-serve basis, but you will be able to schedule another appointment within 5 business days from the day you contact PSI to request an examination.

■ Duplicate Score Report

You may purchase additional copies of your score report at a cost of \$25 per copy. Requests must be submitted to PSI, in writing, within one year after the examination and include the required fee payable to PSI Services Inc. (see form on page 23). The written request should include your name, Social Security number, mailing address, daytime phone, examination taken, examination date, Test Center and your signature. Duplicate score reports will be processed and mailed within approximately five business days following receipt of the request.

■ Irregularities

PSI maintains examination administration and security standards that are designed to assure that all candidates are provided the same opportunity to demonstrate their abilities and to prevent some candidates from gaining an unfair advantage over others due to examination irregularities or misconduct. If irregularities are reported, PSI will review the report and evaluate examination scores suspected of resulting from nonstandard circumstances. All irregularities will also be reported to the Georgia Real Estate Appraiser Board.

PSI and the Georgia Real Estate Appraiser Board reserve the right to cancel test scores if there is reason to question their validity. Scores considered for cancellation may be grouped into two categories:

1. Suspected candidate misconduct – in such cases, PSI and/or the Georgia Real Estate Appraiser Board may undertake a confidential review of the circumstances giving rise to the questionable score validity. If it is determined that there is sufficient cause to question score validity, PSI may cancel the score(s) and inform the involved parties.
2. Irregularities – scores may be canceled because of circumstances beyond candidates' control, such as computer or power failure. In such cases, candidates will be offered an opportunity to retake the examination at no charge.

In addition to the reasons listed above, PSI may cancel examination results if, upon investigation, violation of policies outlined in this publication are found to have been committed.

PREPARING FOR THE EXAMINATION

The study and test-taking advice described here may be helpful as you prepare for the examination. Try to be objective about yourself and your individual learning needs when deciding how best to study. Plan your study schedule well in advance. Use auxiliary learning techniques, such as extra reading or audiovisual aids. Be sure you find a quiet place to study where you will not be interrupted. We suggest

you concentrate your study efforts on a few carefully chosen textbooks.

1. The examination will be timed and the computer will indicate the time remaining on the screen. If you find it distracting, the time feature may be turned off during the examination. If you do choose to turn off the time feature, you should pace yourself by periodically checking your progress. This will allow you to make any necessary adjustments. Remember, the more questions you answer, the better your chances of achieving a passing score. The time limit is intended to allow candidates to complete the entire examination by working quickly and efficiently.
2. Be sure to answer each question, even the ones for which you are uncertain. Avoid leaving any questions unanswered; this will maximize your chances of passing. It is better to guess than to leave a question unanswered; there is no penalty for guessing.

Not everyone passes the examination on the first attempt. If you do not pass the examination, you may wish to consider the following suggestions:

1. Study concepts and vocabulary, not questions. Each examination includes different questions. Since you have previously taken the examination, you have seen all of the types of questions that may be asked. If simply reading the definition of a word does not adequately explain its meaning to you, look up the word in the index of the textbook you are reading and study the word in the context in which it is presented in the textbook.
2. Some people feel that the process of getting to the Test Center, getting admitted, and reading instructions creates such anxiety that they are unable to do their best on an examination despite knowing the material well. If you are among that group, try the following alternatives:
 - a. Drive to the Test Center before the date of the examination so that you know how to get there.
 - b. If you must travel a great distance to the Test Center, spend the night before the examination in a motel near the site so that you do not get delayed in traffic.
 - c. Complete all of your study for the examination before 6:00 p.m. of the day before the examination. Have a leisurely dinner. Get a good night's sleep. Do not try to cram in last minute studying during the night before the examination or the morning of the examination.
 - d. When you begin taking the examination, if the first few questions seem difficult, do not worry. Skip over them until you come to questions which seem easier to you. The computer makes it easy to return to an unanswered question at any time. Make sure you answer every question.

EXAMINATION CONTENT

To begin your preparation in an informed and organized manner, you should know what to expect from the actual examination in terms of the content. Information regarding the content of the examination you will be taking is presented in the following sections. This includes a content outline, sample questions and answers.

The content outline does not include topics that may be helpful to success in the industry. Since the purpose of licensure testing is to protect the consumer rather than to guarantee success in practice, the examinations focus on the knowledge you must have to protect the consumer and your ability to apply that knowledge to a consumer’s particular situation. Similarly, the examinations include some technical language not used in your everyday conversations. You must learn that language to become a part of the profession and be able to explain its meaning to customers and clients.

■ Appraiser Examination Specifications

The Examination Specifications and the Detailed Content Outline have been established by the Appraiser Qualifications Board (AQB). The authority for the AQB to set standards and approve examination content was established by Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989.

The State Licensed Appraiser, State Certified Residential Appraiser, and State Certified General Appraiser examinations are based upon 10 major content areas. Although the topics of the major content areas are the same for all three examinations, the emphasis devoted to the content areas differs in each examination.

Each of the content areas is briefly described below. In addition, the percentage of questions devoted to each of the three examinations is indicated for each major content area. The examinations are composed of 125 items. In addition to the 110 questions that are used to determine your score, the examinations may contain up to 15 questions that are being pretested for future versions of the examination. Pretest questions are not identified and are not included in the candidate’s score.

■ Sample Questions

The following illustrate the type of questions used in the examinations. These sample questions do not represent the full range of content or difficulty levels contained in the examinations. They are intended to help you become familiar with the types and formats of questions on the examination. Read each question and decide which answer is best. You may then check your answers with the answer key that follows.

1. The subject property is a 10,000 sf office building encumbered by a full-service lease with a contract base rent of \$1.25 per sf monthly. Stabilized vacancy/credit loss allowance for similar properties within the market area is 7% of PGI. The operating expense ratio for similar properties is 30% of EGI, plus reserves for replacement of \$0.15 per sf. Based on these facts, what is the projected net operating income?
 - A. \$97,650
 - B. \$93,000
 - C. \$96,150
 - D. \$94,500

2. The assignment is a warehouse located in an industrial park. The client requires the cost approach be completed. There are no vacant land comparables in the market area. There are 3 sales of commercial buildings in the industrial park with similar lots that the appraiser has researched extensively. The appraiser found the following information:

Sale 1 sold for \$1,750,000. The buyer allocated 20% of the value to the site and 80% to the value of the structure.

Sale 2 sold for \$1,000,000. The buyer was not available for verification, but the seller was available. The seller had just built the structure after holding the lot for 10 years as an investment property. He paid \$100,000 for the lot and had earned 25% straight line annual return on his investment over the cost of the structure and its entrepreneurial profit.

Sale 3 sold for \$3,500,000. The buyer estimated that 90% of what he paid was for the structure.

What is the indicated value of the lot using the allocation approach?

 - A. \$350,000
 - B. \$500,000
 - C. \$135,000
 - D. \$125,000

3. During the research of a subject property an appraiser learns the occupants (parents) have been granted a life estate by their children. What interest do the children hold in the property?
 - A. Remainderman
 - B. Life tenant
 - C. Trustee
 - D. Trustor

4. A homeowner purchased two adjacent lots in a tract subdivision 20 years ago and built a single-unit residence entirely on one lot, utilizing the second lot as a side yard. The homeowner has decided to build a smaller home on the vacant side lot and retain the existing home as a rental. What term applies to the second yard?
 - A. Surplus land
 - B. Vacant site
 - C. Excess land
 - D. Underutilized site

5. The subject assignment is to appraise a 1880s vintage house using the cost approach. The house has metal stamped ceilings, lath and plaster walls, which are items not easily available in today's construction. The estimated replacement cost using modern materials is \$120 per sf. Contractors charge \$15 more per sf to work on older houses. The estimated reproduction cost is \$185 per sf. What is the estimated loss in utility?
 - A. \$65 per sf
 - B. \$33 per sf
 - C. \$80 per sf
 - D. \$15 per sf

6. While working on an appraisal of a residential property in a new home subdivision, the appraiser finds that the builders have a total of 100 home sites currently offered for sale. In measuring market demand the appraiser notes that all of the builders are currently averaging 2 new sales contracts per month (combined), and are expecting to sell 24 homes within the next year. What conclusion could be drawn with regard to the 100 available home sites and a market period of the next 12 months?
 - A. The market is in a condition of supply and demand.
 - B. The market is in a condition of balance.
 - C. The market is in a condition of oversupply.

HOW TO OBTAIN AN APPRAISER CLASSIFICATION

■ Obtain a License

Persons who have successfully completed the real estate appraiser examination and who meet all other licensing requirements will be able to obtain a State Licensed, State Certified Residential, or State Certified General appraiser classifications at any one of the four PSI Test Centers in the state of Georgia.

Appraiser classifications will be issued on a first-come, first-serve basis from 9:00 a.m. to 12:00 p.m. and from 2:00 p.m. until 4:45 p.m. during the regular business days for each Test Center. You must apply for a license/certificate not more than 12 months from the date you passed the examination. If you fail to apply for your license/certificate within 12 months, you must retake the examination to qualify for the classification.

■ What You Will Receive

If you provide the appropriate information and fees for the license category for which you are qualified and are approved by the Board, you will receive the appropriate certificates, which may include a plastic laminated 8½" x 4" wall certificate and two laminated pocket cards.

If that report indicates that the applicant has a criminal record outside of their state of residence, the Commission / Board may request that the applicant obtain, at the applicant's expense, a National Crime Information Center (NCIC) report from the Federal Bureau of Investigation. **Do not** obtain this report unless the Commission / Board requests you to do so.
