Tips for Examination Preparation

The following suggestions will help you prepare for your examination. Planned preparation, in addition to the required classroom hours, increases your likelihood of passing.

- Use the examination content outline provided in this Candidate Information Bulletin as the basis of your study. The outline itself is a study tool because it can familiarize you with real estate terms.
- Learn the major points associated with each outline topic.
- Select study materials that cover all the topics in the content outline.
- Take notes on what you study. Putting information in writing helps you commit it to memory. Underline or highlight key ideas that will help with a later review.
- Read the study materials, making sure you understand each idea before going on to another.
- Check each topic off the outline when you feel you have an adequate understanding. Plan to take your examination when all topics have been checked.
- Discuss new terms or concepts as frequently as you can with colleagues. This will test your understanding and reinforce ideas.
- Your studies will be most effective if you study frequently, for about 45 to 60 minutes. Concentration tends to wander when you study for longer periods of time.

Description of Examinations and Examination Content Outlines

The Examination Content Outlines have been approved by the Maryland Real Estate Commission. These outlines reflect the minimum knowledge required by real estate professionals to perform their duties to the public in a competent and responsible manner. Changes in the examination content will be preceded by changes in these published examination content outlines.

Use the outlines as the basis of your study. The outlines list all of the topics that are on the examination and the number

of items for each topic. Do not schedule your examination until you are familiar with all topics in the outlines.

The Examination Summary Table below shows the number of questions and the time allowed for each examination portion.

EXAMINATION SUMMARY TABLE			
Examination	Portion	Number of Questions	Time Allowed
Salesperson	National	80 (80 points)	90 Minutes

Experimental Questions

A small number of “experimental” questions (i.e., 5 to 10) may be administered to candidates during the examinations. These questions will not be scored and the time taken to answer them will not count against testing time. The administration of such unscored, experimental questions is an essential step in developing future licensing exams.
