EXAMINATIONS BY PSI SERVICES LLC

This Candidate Information Bulletin provides you with information about the examination and application process for becoming licensed as a Barber, Cosmetologist, Manicurist, Esthetician, and Electrologist in the State of California.

The Board has contracted with PSI Services LLC (PSI) to conduct its examination program.

EXAMINATION DEVELOPMENT

The tests being administered are developed solely by PSI. Test items (questions) are researched, written, referenced, and reviewed by subject matter experts within the licensure field throughout the United States. Each item is validated and referenced for accuracy and consistency with entry level practice.

ESTABLISHING THE PASSING STANDARDS

Licensing tests are designed to assess test taker knowledge of health and public safety necessary to protect the consumer while performing services within the licensure scope of practice. The test experience is mandated to ensure a licensee possesses the basic knowledge of entry level skills to work safely and not harm a consumer.

In accordance with Business and Professions Code, Section 101.6, the purpose of Boards, Bureaus, and Commissions is to "... establish minimum qualifications and levels of competency and license persons desiring to engage in occupations they regulate upon determining such persons possess the requisite skills and qualifications necessary to provide safe and effective services to the public, or register or otherwise certify persons to identify practitioners and ensure performance according to set and accepted professional standards."

CRITERION-REFERENCED SCORING

The theory tests use a criterion-referenced passing score which applies standards for competent practice to all test takers regardless of the form of the test administered. A criterion-referenced passing score increases the likelihood that test takers who pass a licensure test will have sufficient knowledge and experience to practice safely and competently. Test development and psychometric procedures are adhered to make certain no test taker is at an advantage or disadvantage.

REPORTING TO THE EXAMINATION SITE

On the day of the examination, you must arrive at least 30 minutes prior to your scheduled appointment time. This allows time for check-in and identification verification and provides time to familiarize yourself with the examination process. If you arrive late, you may not be admitted to the examination site and you may forfeit your examination registration fee. Even though candidates will be thumb printed, you are still required to comply with any identification requirements established by the appropriate regulatory entity.

REQUIRED IDENTIFICATION AT EXAMINATION SITE

In order to be admitted into the examination, you must present valid Government-issued photographic identification. Examples are as follows:

- An unexpired State-issued Driver's License (any State)
- An unexpired State Identification Card (any State)
- A current U.S. military-issued identification card
- A valid passport (unexpired)--any country
- A U.S. Government-issued Passport Card
- An employment authorization card
- A Permanent Resident Card

All photographs must be recognizable as the person to whom the identification card was issued. The name on the application must match photographic I.D. card. **The identification presented for entrance into the exam must match the name of record with the board IDENTICALLY letter for letter (this includes middle name vs. middle initial). If your full name does not match identically on the identification presented at the testing site, you will NOT be allowed to sit for the examination and you will forfeit your fee.** All I.D.s must be current/unexpired.

FAILURE TO PROVIDE APPROPRIATE IDENTIFICATION AT THE TIME OF THE EXAMINATION WILL RESULT IN A CANDIDATE NOT BEING ABLE TO SIT FOR THE EXAMINATION. Candidates who fail to appear for the examination or who are not admitted due to improper identification must submit the re-examination application along with the applicable fee to the BBC in order to be eligible to reschedule their examination.

CALIFORNIA LAW SECURITY PROCEDURES

Section 123 of the California Business and Professions Code states: It is a misdemeanor for any person to engage in any conduct which subverts or attempts to subvert any licensing examination or the administration of an examination, including, but not limited to:

- Conduct which violates the security of the examination materials;
- Removing from the examination room any examination materials without authorization;
- The unauthorized reproduction by any means of any portion of the actual licensing examination;
- Aiding by any means the unauthorized reproduction of any portion of the licensing examination;
- Paying or using professional or paid examination-takers for the purpose of reconstructing any portion of the licensing examination;

- Obtaining examination questions or other examination material, except by specific authorization either before, during, or after an examination; or
- Selling, distributing, buying, receiving, or having unauthorized possession of any portion of a future, current, or previously administered licensing examination.
- Communicating with any other candidate during the administration of a licensing examination.
- Copying answers from another candidate or permitting one's answers to be copied by another candidate.
- Having in one's possession during the administration of the licensing examination any books, equipment, notes, written or printed materials, or data of any kind, other than the examination materials distributed, or otherwise authorized to be in one's possession during the examination.
- Impersonating any candidate or having an impersonator take the licensing examination on one's behalf.

Nothing in this section shall preclude prosecution under authority provided for in any other provision of law. In addition to any other penalties, a person found guilty of violating this section shall be liable for the actual damages sustained by the agency administering the examination not to exceed ten thousand dollars (\$10,000) and the costs of litigation.

REASONABLE ACCOMMODATIONS AVAILABLE

Candidates with a physical or mental impairment that substantially limits a major life activity may be eligible for accommodation in the testing process to assure that the examination accurately reflects knowledge, skills or abilities. The BBC and PSI are fully compliant with ADA guidelines and will provide reasonable accommodations. Scheduling services are also available via our Telecommunications Device for the Deaf (TDD) by calling 800.735.2929.

If you need accommodations to take the examination, you must submit a Request for Reasonable Accommodations form with your license application. The form must be signed by the professional making the diagnosis. You will be required to explain the disability and what reasonable accommodation is needed. A letter from your health-care provider must be included, confirming the disability and justifying the need for accommodations using the criteria in the request form.

You must apply with the Board. Approval for accommodations must be received by PSI **before** you schedule your examination appointment with PSI.

IMPORTANT INFORMATION ABOUT TAKING AN EXAMINATION

1. All candidates will have their thumb print taken during examination check-in. The thumb print must be matched after candidates return from a restroom break and any time the candidate leaves and returns to the test site after check-in.
2. The temperature in the testing room is maintained at a moderate level. Candidates are advised to layer clothing. Acceptable layered clothing includes lightweight shirts, sweaters, and pullovers without pockets or hoods. These

items must be worn upon check-in, while you wait to enter the testing room, and during your initial seating for the examination. If the layered item is removed during the examination, you will be required to store it in the lobby while time continues to count down on your examination. Outerwear (coats, heavy jackets, vests, shawls, scarves, etc.) is not allowed in the testing rooms.

3. There are timing mechanisms available in the testing room and on the computer console to help candidates keep track of time during the test administration. Candidates are not permitted to bring watches or other timekeeping devices into the testing rooms.
4. Only one candidate will be allowed to take a restroom break at a time. Candidates are required to sign out when leaving and returning to the testing room. If a candidate's restroom break takes longer than 5 (five) minutes, a proctor will check on the candidate and will notify the applicable regulatory entity of the occurrence. The regulatory entity will investigate and take appropriate action.
5. The following is a non-exhaustive list of personal items that are not permitted in the testing rooms:

Purses	Briefcases/daypacks/luggage
Cellular phones	Pagers
Drinks (including water)	Food/candy/snacks/gum
Good luck items	Luggage
Calculators	Reading materials
Textbooks	Notes
Any recording device	Smart devices
Electronic devices	Headphones or earphones/earbuds
Personal pens or pencils	Therapeutic items
Cameras	Over-the-counter medication
Weapons	Fashion scarves
Hats/baseball caps/visors*	Sunglasses**
Bulky, large or noisy jewelry***	Prescription drugs****

*Headwear worn for religious purposes is subject to inspection.

**Prescription and non-prescription eyeglasses may not be worn for the photo. Eyeglasses subject to inspection.

***Jewelry that is allowed into the examination room is subject to inspection.

****Drugs that are medically necessary during the pendency of the examination may be brought into the examination site, in a container bearing a proper prescription label with the name of the candidate and of the drug; any such medication is subject to examination by a proctor upon check-in.

Examination proctors will have considerable discretion to refuse permission of clothing and/or items that compromise the integrity or security of the examination.

During the check-in process, all candidates will be asked if they possess any of the prohibited items and all candidates will be asked to empty their pockets. If prohibited items are found during check-in, candidates must return these items to their vehicle or other place of safekeeping. Neither PSI nor the Department of Consumer Affairs will be

responsible for the items. Any candidate possessing prohibited items in the testing room will have their examination results invalidated, and PSI will notify the appropriate regulatory entity of the occurrence.

6. Shoes must be worn at all times and feet are not permitted on the chairs. Feet must remain on the floor during examinations.
7. Copying any portion of the examination content by any means, or communicating examination content for the purpose of aiding its unauthorized reproduction, whether before, during, or after the examination, is a violation of PSI security policy and existing law. Either one may result in the disqualification or invalidation of examination results, and the denial of your license, and may result in criminal prosecution.
8. If a candidate is asked by a proctor to step into the lobby during your examination, the proctor will suspend the candidate's examination, so all remaining test time will be retained.

Only candidates, and those individuals with prior regulatory entity approval, are allowed to be present in the testing sites.

If candidates require that an exception be made to ANY of the abovementioned security procedures, candidates must contact their regulatory entity PRIOR to the date of their examination. The regulatory entity must provide the exception to PSI. NO EXCEPTIONS WILL BE MADE ON THE DAY OF THE EXAMINATION.

THEORY CONTENT OUTLINE

The test content outline is prepared and is periodically updated by committees of professionals who are subject matter experts in Barbering and Cosmetology, Barbering and Cosmetology instruction, or regulatory issues. The test content outline identifies areas of importance to licensees for them to perform their duties on the public in a competent and in a safe and responsible manner.

The content outline lists topics that are on the test and the number of questions for each topic. We advise test takers not schedule a test until they are familiar with the topics on the outline. Test takers may use this outline as a guide as well as the test references as a guide for a pre-test review.

EXPERIMENTAL ITEMS

In addition to the number of examination items specified in the "Examination Content Outlines", a small number (5 to 10) of

"experimental" questions may be administered to candidates during the examinations. These questions will not be scored. However, these questions will count against examination time. The administration of such unscored, experimental questions is an essential step in developing future licensing examinations.

EXAMINATION REVIEW

PSI will be continually evaluating the examinations being administered to ensure that the examinations accurately measure competency in the required knowledge areas. Comments may be entered during the examination by clicking the Comments link on the function bar of the test question screen.

Your comments regarding the questions and the examinations are welcomed. Comments will be analyzed by PSI examination development staff. If you have any future questions about the exam content, please contact cosmetology@psionline.com.
